Your photo book can have extra pages added if you wish, all you pay is the difference in price from the package album to the one you want. You also have control over the photos that you want in your book and can even have words written into the book. Imagine having your vows typed up opposite the image of you exchanging rings! You can also leave room to put in mementos such as a copy of your invitations. You have the final say in what you have in your book and how it looks, it does not go to print without your approval.
